7 April 2020

## Easter Schedule for Micropathology Ltd

Due to the current SARS-Cov-2 pandemic Micropathology Ltd will be operating on all days over the Easter period.

We have been advised that Dx will be operating throughout as a normal service, after discussion with the PHE, **although you are advised to check with your local Dx depot regarding your own collection schedule.**

We have 24-hour reception here so samples can be received at any time day or night should you wish to courier samples to us.

Samples for SARS –Cov-2 , COVID19 testing arriving on Saturday morning by 9.00 hrs will be booked in and extracted ready for testing on Sunday morning and results sent out Sunday afternoon.

Good Friday (10 April) and Easter Monday (13 April) will be normal working days with samples that arrive in the morning being processed as normal .
